Insights:

1. Czechoslovakia has total 18 banks across 77 districts and 8 regions the banks have total 4742 clients with almost same number of male and female clients.
2. No. of loan borrowers has been suddenly increased from year 2020 which may be because of covid-19 pandemic.
3. Maximum number of new accounts are opened in year 2017 & 2020.
4. "Sky Bank" has comes out as popular bank among all customers because of which their account balance/ profit is continuously increasing throughout every year.

Suggestions:

1. Banks should try to provide all services available in Hl. M. Praha. district across all other districts so that probability of getting new client will increase.
2. Banks should launch new campaign for increasing number of "Gold" card users.
3. Offer Financial counselling or flexible repayment options to clients in debt.
